(a)
(b)
(c)
growth volatility
measured
$\sqrt{V_F + B}$
floor $\sqrt{V_F}$
noise $\sqrt{B}$
life-mean size $\bar{S}$
dispersion at fixed size, s^2
power-law graph
regular graph
life-mean size $\bar{S}$
ζ_q / ζ_1
measured
own floor + $B(\bar{S})$
$\zeta_q = q\zeta_1$
regular
power law
q
